

Implementation of EU-Directive 2011/65/EU (RoHS II)

This Directive deals with the prevention or prohibition of various substances in electrical products. This Directive entered into force on 01.01.2013, its scope will be extended gradually until the year 2019. We confirm that the products, which are covered by the RoHS- Directive, are in accordance with the applicable point of requirements of the Directive and the amended Annex II (2015/863/EU).
